Student/Parent Handbook Warrensville Heights City School District

WELCOME to Warrensville Heights City School District. The staff is pleased to have you as a student and will do our best to help make your experience here enjoyable and successful. To help provide a safe and productive learning environment for students, staff, parents and visitors, the Board of Education publishes this updated Student/Parent Handbook annually to explain students' rights and responsibilities and consequences for misbehavior.

Parents are encouraged to take a few minutes to review and discuss the information in this Handbook with their school-age children. Teachers will also review this Handbook with students at the beginning of the school year.

Thank you for taking time to become familiar with the important information in this Handbook. If you have any questions, please contact the principal at the numbers listed below.

FORWARD

This student handbook was developed to answer many of the commonly asked questions you and your parents may have during the school year and to provide specific information about certain Board policies and procedures. This handbook contains important information you should know. Become familiar with the following information and keep the handbook available for frequent reference. If you have any questions not addressed in this handbook, you are encouraged to talk to your teachers or the building principal.

This handbook summarizes many of the official policies and administrative guidelines of the Board of Education and the District. To the extent the handbook is ambiguous or conflicts with these policies and guidelines, the policies and guidelines shall govern all decisions. This handbook is effective immediately and supersedes any prior handbook and other written material on the same subjects.

This handbook does not equate to an irrevocable contractual commitment to the student, but only reflects the current status of the Board's policies and the School's rules as of July 16, 2016. If any of the policies or administrative guidelines referenced herein are revised after June 16, 2016, the language in the most current policy or administrative guideline prevails. Copies of current board policies and administrative guidelines are available from the building principal and on the District's website.

VISION

To create an educational environment that promotes curiosity, critical thinking, communication and collaboration while empowering scholars to be responsible, contributing members of our community, nation and world.

MISSION

To inspire confidence and encourage success.

EQUAL EDUCATION OPPORTUNITY

Any form of discrimination or harassment can be devastating to an individual's academic progress, social relationship and/or personal sense of self-worth. As such, the Board of Education does not discriminate on the basis of race, color, national origin, sex (including sexual orientation and transgender identity), disability, age, religion, military status, ancestry, genetic information (collectively, "Protected Classes"), or any other legally protected category, in its programs and activities, including employment opportunities. Any person who believes he/she has been discriminated against on the basis of his/her race, color, national origin, sex (including sexual

orientation and transgender identity), disability, age, religion, military status, ancestry, genetic information (collectively, "Protected Classes"), or any other legally protected category while at school or a school activity should immediately contact the School District's Compliance Officer(s) Human Resource Officer 216-865-4721.

Complaints will be investigated in accordance with the procedures described in the paragraph below. Any student making a complaint or participating in a school investigation will be protected from retaliation. The Compliance Officer(s) can provide additional information concerning equal access to educational opportunity.

The superintendent shall appoint and publicize the name of the compliance officer(s) who is/are responsible for coordinating the District's efforts to comply with applicable Federal and State laws and regulations, including the District's duty to address in a prompt and equitable manner any inquiries or complaints regarding discrimination or denial of equal access. The compliance officer(s) shall also verify proper notice of nondiscrimination for Title II of the Americans with Disabilities Act (as amended), Title VI and VII of the Civil Rights Act of 1964, Title IX of the Education Amendment Act of 1972, Section 504 of the Rehabilitation Act of 1973 (as amended), and the Age Discrimination Act of 1975 is provided to students, their parents, staff members and the general public.

SCHOOL DAYS

The Board of Education authorizes the school day to be arranged and scheduled by the administration. It is to offer the maximum education for the time spent within the limitations of school facilities and the laws and regulations of the State.

The superintendent may close the schools, delay the opening of school or dismiss school early when such alteration in the regular session is required for the protection of the health and safety of students and staff members. He/she shall prepare administrative guidelines for the proper and timely notification of concerned persons in the event of any emergency closing of the schools.

The superintendent shall have the authority to determine which school-related activities may be conducted if the schools are closed for a period of time. He/she shall prepare appropriate guidelines for communication to students, parents, and others regarding the scheduling and the conduct of such activities. (Policy 8220, O.R.C. 3313.48, 3317.01)

The hours of the Warrensville Heights City Schools are as follows:

Warrensville Heights High School	8:00 a.m. to 3:00 p.m.
Warrensville Heights Middle School	8:00 a.m. to 3:00 p.m.
Eastwood Elementary School	8:45 a.m. to 3:30 p.m.
Westwood Elementary School	8:45 a.m. to 3:30 p.m.
John Dewey Elementary School	9:00 a.m. to 3:45 p.m.

STUDENT RESPONSIBILITIES

The rules and procedures of the school are designed to allow each student to obtain a safe, orderly, and appropriate education. Students can expect their rights to freedom of expression and association and to fair treatment as long as they respect those rights for their fellow students and the staff. Students will be expected to follow teachers' directions and to obey all school rules. Disciplinary procedures are designed to ensure due process (a fair hearing) before a student is removed because of his/her behavior.

Parents have the right to know how their child is succeeding in school and will be provided information on a regular basis and as needed, when concerns arise. Many times it will be the student's responsibility to deliver that information. If necessary, the mail or hand delivery may be used to ensure contact. Parents are encouraged to build a two-way link with their child's teachers and support staff by informing the staff of suggestions or concerns to help their child better accomplish his/her educational goals.

Students must arrive at school on time, prepared to learn and participate in the educational program. If, for some reason, this is not possible, the student should seek help from the building administrator. Adult students (age eighteen (18) or older) must follow all school rules. If residing at home, adult students should include their parents in their educational program.

STUDENT WELL-BEING

Student safety is a responsibility of the staff. All staff members are familiar with emergency procedures such as fire, tornado drills, safety drills in the event of a terrorist or other violent attack, and accident reporting procedures. Should a student become aware of any dangerous situation or accident, he/she must notify any staff person immediately.

State law requires all students must have an emergency medical card completed, signed by a parent or guardian, and filed in the School office. A student may be excluded from school until this requirement has been fulfilled.

Students with specific health care needs should deliver written notice about such needs along with proper documentation by a physician, to the School office.

INJURY AND ILLNESS

All injuries must be reported to a teacher or the office. If minor, the student will be treated and may return to class. If medical attention is required, the office will follow the School's emergency procedures.

A student who becomes ill during the school day should request permission to go to the office. An appropriate adult in the office will determine whether or not the student should remain in school or go home. No student will be released from school without proper parental permission.

ENROLLING IN THE SCHOOL

In general, state law requires students to enroll in the school district in which their parent or legal guardian resides.

New students under the age of 18 must be enrolled by their parent or legal guardian. When enrolling, parents must provide copies of the following:

- A. A birth certificate or similar document
- B. Court papers allocating parental rights and responsibilities, or custody (if appropriate)
- C. Proof of residency
- D. Proof of immunizations

Under certain circumstances, temporary enrollment may be permitted. In such cases, parents will be notified about documentation required to establish permanent enrollment.

Students enrolling from another school must have an official transcript from their previous school in order to have credits transferred. The Registration Office will assist in obtaining the transcript, if not presented at the time of enrollment.

Homeless students who meet the Federal definition of homeless may enroll and will be under the District Liaison Homeless Children with regard to enrollment procedures.

New students 18 years of age or older are not required to be accompanied by a parent when enrolling. When residing with a parent, these students are encouraged to include the parents in the enrollment process. When conducting themselves in school, adult students have the responsibilities of both student and parent.

In addition, if a student resides in the district with a grandparent and is the subject of a: (1) power of attorney designating the grandparent as the person in charge; or (2) a caretaker authorization affidavit executed by the grandparent that provides the grandparent with authority over the care, physical custody, and control of the child, including the ability to enroll the child in school, consent in all school related matters, and discuss with the district the child's educational progress, the student's grandparent may enroll the child in school on a tuition-free basis. However, in addition to the above-referenced documents that are typically required for enrollment, the grandparent must provide the district with a duly executed and notarized copy of a power of attorney or caretaker authorization affidavit. The grandparent must live in Cuyahoga County and the power of attorney must be filed in the Cuyahoga County Juvenile Court's Clerk's office. The power of attorney must be filed no later than five days after the date the power of attorney is created. The parent of the child signing the power of attorney must notify the child's other parent of the creation of the power of attorney (Filing Procedure for Grandparent powers of attorney, R.C. 3109.53 and Grandparent caretaker Authorization Affidavits, R.C.3109.65).

A student suspended or expelled by another public school in Ohio may be temporarily denied admission to the district's schools during the period of suspension or expulsion even if that student would otherwise be entitled to attend school in the district. Likewise, a student expelled or otherwise removed for disciplinary purposes from a public school in another state and the period of expulsion or removal has not expired may be temporarily denied admission to the district's schools during the period of expulsion or removal or until the expiration of the period of expulsion or removal which the student would have received in the district had the student committed the offense while enrolled in the district. Prior to denying admission, however, the superintendent or designee shall offer the student an opportunity for a hearing to review the circumstances of the suspension or expulsion and any other factors the superintendent determines to be relevant.

If a student has been recently discharged or released from the custody of the Department of Youth Services (DYS) and is seeking admittance or re-admittance into the district, the student will not be admitted until the following records, which are required to be released by DYS to the superintendent, have been received:

- A. An updated copy of the student's transcript;
- B. A report of the student's behavior while in DYS custody;
- C. The student's current IEP, if one has been developed for the child; and
- D. A summary of the instructional record of the child's behavior.

Foreign students and foreign-exchange students (from recognized and approved student programs) are eligible for admission on the same basis as other non-resident students.

SCHEDULING AND ASSIGNMENTS

Elementary Level

The principal will assign each student to the appropriate classroom and program. Any questions or concerns about the assignment should be discussed with the principal.

Secondary Level

Schedules are provided to each student at the beginning of the school year or upon enrollment. Schedules are based on the student's needs and available class space. Any changes in a student's schedule should be handled through the School Counselor's Office. Students may be denied course enrollment due to a lack of available space or the need to pass prerequisites. Students are expected to follow their schedules. Any variation should be approved with a pass or schedule change.

EARLY DISMISSAL

It is necessary for a student be in attendance throughout the school day in order to benefit fully from the educational program of the District.

The Board of Education recognizes, however, from time-to-time compelling circumstances require a student be late to school or dismissed before the end of the school day.

As agent responsible for the education of the children of this District, the Board shall require the school be notified in advance of such absences by written request of the student's parent, which shall state the reason for the tardiness or early dismissal. Justifiable reasons shall be determined by the Office of Accountability.

If one (1) parent has been awarded custody of the student by the courts, the parent of custody shall provide the school with a copy of the custody order and inform the school in writing of any limitations in the rights of the noncustodial parent. Absent such notice, the school will presume the student may be released into the care of either parent.

No student who has a medical disability, which may be incapacitating may be released without a person to accompany him/her.

No student shall be released to anyone who is not authorized such custody by the parents.

WITHDRAWAL/TRANSFER FROM SCHOOL

The Board of Education affirms that, while statute requires attendance of each student from six (6) years of age, or five (5) years of age if enrolled in kindergarten, and not formally withdrawn, until eighteen (18) years of age, it is in the best interests of both students and the community they complete the educational program to equip them with skills and increase their chances for a successful and fulfilling life beyond school. A child enrolled in kindergarten is deemed to be of compulsory school age unless the child's parent or guardian, at the parent or guardian's discretion and in consultation with the child's teacher and principal, formally withdraws the child from kindergarten.

The Board directs that whenever a student wishes to withdraw, effort should be made to determine the underlying reason for such action and the resources of the District should be used to assist the student in reaching his/her career goals. No student under the age of eighteen (18) will be permitted to withdraw without the written consent of a parent and in compliance with State law.

Whenever a student under the age of eighteen (18), withdraws from school without moving out of State, transferring to another approved school, being granted an age and schooling certificate, or enrolling in and attending an approved program, the superintendent shall notify the Registrar of Motor Vehicles and the Judge of the Juvenile Court.

Such notification is to be given within two (2) weeks after the superintendent confirms the student is not properly enrolled in and attending another approved school or program or has moved out of State.

The superintendent shall ensure, through administrative guidelines, that proper procedures are established so that such notification complies with the provisions of O.R.C. 3321.13 (B) (1).

The superintendent shall develop administrative guidelines for withdrawal from school which:

- A. Make counseling services available to any student who wish to withdraw
- B. Advise students of their right to return prior to their twenty-second (22nd) birthday
- C. Assure the timely return of all District-owned supplies and equipment in the possession of the student

In accordance with Policy 5610, the superintendent shall initiate expulsion proceedings against a student who has committed an act that warrants expulsion under Board policy even if the student withdraws from school prior to the hearing or decision to impose the expulsion. Any resulting expulsion shall be imposed for the same duration it would have been had the student remained enrolled.

IMMUNIZATIONS

In order to safeguard the school community from the spread of certain communicable diseases and in recognition that prevention is a means of combating the spread of disease, the Board of Education requires all students to be immunized against poliomyelitis, measles, diphtheria, rubella (German measles), pertussis, tetanus, mumps, and others legally designated in accordance with State statutes, unless specifically exempt for medical or other reasons. The Board requires students who start kindergarten during or after the school year beginning in 1999 be immunized against Hepatitis B or be in the process of being immunized. The Board also requires students who start kindergarten during or after the school year beginning in 2006 be immunized against chicken pox. This policy pertains to both students who currently attend school in the District and those eligible to attend.

The superintendent may exempt a student from being immunized against either or both measles and mumps if the student presents a signed statement from a parent or physician indicating he/she has had measles or mumps and does not need to be immunized. The student will be allowed to attend school only if a physician's statement indicates there is no danger of contagion. In case of an outbreak of the disease for which the student has not been immunized or an epidemic, the superintendent shall not allow the student to attend school.

In the case of a chicken pox epidemic in the school's population, the superintendent may deny admission to a student otherwise exempted from the chicken pox immunization requirement. The superintendent shall prescribe methods whereby the academic standing of a student who is denied admission during a chicken pox epidemic is preserved.

The superintendent may also exempt a student from immunization if a physician certifies in writing immunization from a particular disease is medically contra-indicated.

A student may also be exempt from immunization if a parent or guardian objects for good cause, including religious conviction.

A student who has not completed immunization may not be admitted to school, except as is consistent with the law.

The Board believes immunization is the primary responsibility of the parent(s). For those students who do not have ready access to private or public health services, immunizations shall be provided at public expense.

Any immunization program conducted by this District requires prior approval of the Board and can only extend to those immunizations provided for by statute and the guidelines of this Board. Any questions about immunizations or exemptions should be directed to the school nurse.

EMERGENCY MEDICAL AUTHORIZATION

Annually, before the first day of October, the Board of Education will distribute to parents or guardians of all students the Emergency Medical Authorization Form (Form 5341, F1). Thereafter, the

Board shall, within thirty (30) days after the entry of any student for the first time into a public school in this State, provide the child's parent with a copy of the Emergency Medical Authorization Form.

When the Form is returned to the District with either Part I or Part II completed, the District shall keep the Form on file, and shall send the Form to any school to which the student is transferred. Upon request of the student's parent, the District may permit the parent to make changes in a previously filed Form, or to file a new Form.

In the event emergency medical treatment for a student is necessary, the District will adhere to the instructions on the authorization form. If a parent refuses to grant consent for emergency medical treatment, the parent must indicate in the proper place on the Form (i.e., Part II) the procedure the parent wishes school authorities to follow in the event of a medical emergency involving his/her child.

Even if a parent grants consent for emergency medical treatment, when a student becomes ill or is injured and requires emergency medical treatment while under school authority, or while engaged in an extra-curricular activity authorized by the appropriate school authorities, the building administrator(s) shall make reasonable attempts to contact the parent before treatment is given. The school representative shall present the student's Emergency Medical Authorization Form or a copy thereof to the hospital or practitioner rendering treatment.

The Emergency Medical Authorization Form will be kept in a separate, easily accessible file in each school building during the school year.

Any time a student or a group of students is taken out of the District to participate in a school event, the staff in charge of the event must take the Emergency Medical Authorization Forms for those students. This includes, and is not limited to, students involved in music trips, athletic trips, field trips, and academic contests. This does not include student spectators at events.

Whenever it is necessary for staff members to use emergency procedures in order to care properly for a student, they are to follow the procedures described in the superintendent's administrative guidelines. Staff members shall not abide by any "Do Not Resuscitate" (DNR) order that may exist for a student, unless ordered to do so by a court of law. If a student has a DNR order in his/her educational records and/or DNR identification with him/her, school staff will, to the extent feasible, notify any responding Emergency Medical Services Personnel of the existence of the DNR identification/order (Neola, 2008).

USE OF MEDICATIONS

The Board of Education shall not be responsible for the diagnosis and treatment of student illness. The administration of prescribed medication and/or medically-prescribed treatments to a student during school hours will be permitted only when failure to do so would jeopardize the health of the student, the student would not be able to attend school if the medication or treatment were not made available during school hours, or if the child is disabled and requires medication to benefit from his/her educational program.

For purposes of this policy, "medication" shall include all medicines including those prescribed by a licensed health professional authorized to prescribe drugs and any non-prescribed (over-the-counter) drugs, preparations, and/or remedies. "Treatment" refers both to the manner in which a medication is administered and to health-care procedures which require special training, such as catheterization.

Before any medication (i.e., a drug) or treatment may be administered to any student during school hours, the Board shall require a written statement from a licensed health professional authorized to prescribe

drugs ("prescriber") accompanied by the written authorization of the parent (see Form 5330 F1, Form 5330 F1a, and Form 5330 F1b). These documents shall be kept on file in the nurse's office, and made available to the persons designated by this policy as authorized to administer medication or treatment. A copy of the parent's written request and authorization and the prescriber's written statement must be given, by the next school day following the District's receipt of the documents, to the person authorized to administer drugs to the student for whom the authorization and statement have been received. No student is allowed to provide or sell any type of over-the-counter medication to another student. Violations of this rule will be considered violations of Policy **5530** - Drug Prevention and of the Student Code of Conduct/Discipline Code.

Only medication in its original container; labeled with the date, if a prescription; the student's name; and exact dosage will be administered. The superintendent shall determine a location in each building where the medications to be administered under this policy shall be stored, which shall be a locked storage place, unless the medications require refrigeration in which case they shall be stored in a refrigerator in a place not commonly used by students.

Parents may administer medication or treatment.

Additionally, students may administer medication or treatment to themselves, if authorized in writing by their parents and a licensed health professional authorized to prescribe drugs but only in the presence of a designated school employee.

However, students shall be permitted to carry and use, as necessary, an asthma inhaler, provided the student has prior written permission from his/her parent and physician and has submitted Form 5330 F3, Authorization for the Possession and Use of Asthma Inhalers/Other Emergency Medication(s), to the principal and any school nurse assigned to the building.

Additionally, students shall be permitted to carry and use, as necessary, an epinephrine auto-injector to treat anaphylaxis, provided the student has prior written approval from the prescriber of the medication and his/her parent/guardian, if the student is a minor, and has submitted written approval (Form 5330 F4, Authorization for the Possession and Use of Epinephrine Auto-injector (epi-pen)) to the principal and any school nurse assigned to the building. The parent/guardian or the student shall provide a back-up dose of the medication to the principal or school nurse. This permission shall extend to any activity, event, or program sponsored by the school or in which the school participates. In the event epinephrine is administered by the student or a school employee at school or at any of the covered events, a school employee shall immediately request assistance from an emergency medical service provider (911).

Only employees of the Board who are licensed health professionals or who have completed a drug administration training program conducted by a licensed health professional and are designated by the Board may administer prescription drugs to students in school.

Provided they have completed the requisite training, the following staff is authorized to administer medication and treatment to students:

- A. Principal
- B. Teacher
- C. School nurse
- D. Building secretary
- E. Aide
- F. Others as designated by student's IEP and/or 504 plan

No employee will be required to administer a drug to a student if the employee objects, on the basis of religious convictions, to administering the drug.

Additionally the Board shall permit the administration by a licensed nurse or other authorized staff member of any medication requiring intravenous or intramuscular injection or the insertion of a device into the body when both the medication and the procedure are prescribed by a licensed health professional authorized to prescribe drugs and the nurse/staff member has completed any and all necessary training.

Students who may require administration of an emergency medication may have such medication in their possession upon written authorization of their parent(s) or, such medication, upon being identified as fore noted, may be stored in the nurse's office and administered in accord with this policy.

The superintendent shall prepare administrative guidelines, as needed, to address the proper implementation of this policy.

NON-PRESCRIBED (OVER THE COUNTER) MEDICATION

No staff member will dispense non-prescribed, over-the-counter (OTC) medication to any student without prior parent authorization. Parents may authorize administration of a non-prescribed medication on forms available from the principal's office. Physician authorization is not required in such cases.

If a student is found using or possessing a non-prescribed medication without parent authorization, the student will be brought to the School office while the student's parents are contacted for authorization. The medication will be confiscated until written authorization is received.

Any student who distributes medication of any kind or who is found in possession of unauthorized medication is in violation of the School's Code of Conduct and will be disciplined in accordance with the drug-use provision of the Code.

A student may possess and use a metered dose inhaler or a dry powder inhaler to alleviate asthmatic symptoms or before exercise to prevent the onset of asthmatic symptoms, at school or at any activity, event, or program sponsored by or in which the student's school is a participant if the appropriate form is completed and on file in the principal's office.

A student who is authorized to possess and use a metered dose or dry powder inhaler may not transfer possession of any inhaler or other medication to any other student.

CONTROL OF CASUAL CONTACT COMMUNICABLE DISEASE

Because a school has a high concentration of people, it is necessary to take specific measures when the health or safety of the group is at risk. The School's professional staff may remove or isolate a student who has been ill or has been exposed to a communicable disease or highly-transient pest, such as lice.

Specific diseases include; diphtheria, scarlet fever, strep infections, whooping cough, mumps, measles, rubella, and other conditions indicated by the Local and State Health Departments.

Any removal will be limited to the contagious period as specified in the School's administrative guidelines.

CONTROL OF NON-CASUAL CONTACT COMMUNICABLE DISEASE

The Board of Education seeks to provide a safe educational environment for students and staff. This can best be accomplished by assuring all persons with the school community understand the method of transmission and prevention of diseases that are not contracted through air-borne pathogens, but rather, through direct contact with body fluids and excretions, especially blood, vomit, feces, or urine. The Board is also committed to assuring the confidential status of individuals who may have been diagnosed with a blood-borne communicable disease.

For purposes of this policy, these diseases shall include:

- A. HIV (human immunodeficiency virus)
- B. AIDS (acquired immune deficiency syndrome)
- C. AIDS related complex (condition)
- D. HAV, HBV, HCV (Hepatitis A, B, C)
- E. Other diseases that may be specified by State Department of Health as contact communicable diseases.

The Board recognizes the fact individuals who have contracted these diseases may not exhibit symptoms for many years after exposure and may, in fact, not be aware they have contracted the disease. They are, however, able to transmit the disease to other individuals.

The Board further directs the superintendent to assure students or staff who reveals the fact they have contracted one of these diseases will have their status safeguarded in accordance with Federal and State statutes dealing with confidentiality and their civil rights will be respected. Staff members will have access to District leave policies in accordance with Board policy and negotiated agreement and opportunities for reasonable accommodation as described by the Americans with Disabilities Act. Should a student be unable to attend school as a result of illness, an alternative education program shall be provided in accordance with the Board's policy and administrative guidelines dealing with Homebound Instruction.

CONTROL OF BLOOD-BORNE PATHOGENS

The district seeks to provide a safe educational environment for students and take appropriate measures to protect those students who may be exposed to blood-borne pathogens in the school environment and/or during their participation in school-related activities. While the risks of students being exposed to blood-borne pathogens may be low, students must assume all body fluids are potentially infectious and must take precaution to follow universal procedures in order to reduce such risks and minimize and/or prevent the potential for accidental infection.

Students may be exposed to blood-borne pathogens in situations, including, but not limited to the following:

1. Engaging in activities with other students in the school environment (i.e., physical education class) where physical injuries or other actions can cause bleeding or exposure to saliva and other body fluids may occur.
2. Working with equipment in the school environment can cause cuts or similar injuries that produce bleeding.
3. Participating in extracurricular activities (i.e., athletic activities) where physical injuries or other actions can cause bleeding to occur.

Whenever a student has contact with blood or other potentially infectious material, he/she must immediately notify his/her teacher, who will contact the school Nurse and/or Health Aide and assist the student in completing the requisite documents.

The parents of a student who is exposed will be contacted immediately regarding the exposure and encouraged to have the student's blood tested for Hepatitis B and HIV by her/his physician. The student's parents are encouraged to consult with the student's physician concerning any necessary post-exposure treatment.

The parents of the student who caused the exposure will also be contacted immediately and advised to have the student's blood tested for Hepatitis B and HIV virus in cooperation with her/his physician.

STUDENTS WITH DISABILITIES

The Board of Education is committed to providing a free appropriate public education to children with disabilities identified in accordance with applicable State and Federal laws, rules, and regulations.

In order to satisfy the requirements of the *Operating Standards for Ohio Educational Agencies Serving Children with Disabilities* ("Ohio Operating Standards"), the Board of Education adopts the model policies and procedures promulgated by the Ohio Department of Education's Office of Exceptional Children (ODE-OEC), which is incorporated by reference into this policy. While the Special Education Model Policies and Procedures ("Model Policies") issued by the ODE-OEC are comprehensive, the document does not include every requirement set forth in the Individuals with Disabilities Education Improvement Act of 2004 ("IDEIA"), the regulations implementing the IDEIA, the Operating Standards, the Ohio Revised Code, and/or the Ohio Administrative Code. As such, the Board affirms its obligation to follow these laws and regulations, regardless of whether their provisions are restated in the Model Policies.

Copies of Model Policies and Procedures are available at the Office of Special Education.

A student can access special education and related services through the proper evaluation procedures. Parent involvement in this procedure is important and required by federal (IDEIA, A.D.A. Section 504) and state law. Contact the Special Education Department at (216) 336.6592 to inquire about evaluation procedures, programs, and services.

HOMELESS STUDENTS

Children who meet the Federal definition of "homeless" will be provided a free appropriate public education in the same manner as all other students of the District. To that end, homeless students will not be stigmatized or segregated on the basis of their status as homeless and will be assigned to the school serving those non-homeless students residing in the area in which the homeless child is actually living. The District shall establish safeguards to protect homeless students from discrimination on the basis of their homelessness.

Homeless children and youth are defined as individuals who lack a fixed, regular, and adequate night time residence, and include those who meet any of the following criteria:

- A. Share the housing of other persons due to loss of housing, economic hardship, or similar reason.
- B. Live in motels, hotels, trailer parks, or camping grounds due to a lack of alternative adequate accommodations.
- C. Live in emergency or transitional shelters
- D. Are abandoned in hospitals
- E. Are waiting for foster care placement
- F. Have a primary night time residence that is a public or private place not designed for or ordinarily used as a regular sleeping accommodation for human beings, or
- G. Live in a car, park, public space, abandoned building, substandard housing, bus or train station, or similar setting.

Additionally, pursuant to Federal and State law, migratory children who are living in circumstances described in A-G above are also considered homeless.

Homeless preschool-aged children and their families shall be provided equal access to the educational services for which they are eligible, including preschool programs administered by the School District.

The District shall remove barriers to the enrollment and retention of homeless students in schools in the District. Homeless students shall be enrolled immediately, even if they do not have the necessary enrollment documentation such as immunization and health records, proof of residency or guardianship, birth certificate, school records, and other documentation.

Homeless students will be provided services comparable to other students in the District including:

- A. Transportation services
- B. Educational services for which the homeless student meets eligibility criteria including services provided under Title I of the Elementary and Secondary Education Act or similar State and local programs, educational programs for children with disabilities, and educational programs for students with limited English proficiency
- C. Programs in vocational and technical education
- D. Programs for gifted and talented students
- E. School nutrition programs
- F. Before and after-school programs .

Homeless students have the right to remain in their school of origin or the local attendance area school, according to the child's best interest. The school of origin is the school the student attended when permanently housed or last enrolled. The local attendance area school is any public school that non-homeless students who live in the attendance area in which the student is actually living are eligible to attend.

Homeless students have the right to dispute their school assignment, if their assignment is other than their school of origin. In determining the best interest of the student, the District shall, to the extent feasible, keep the student in the school of origin, except when doing so is contrary to the wishes of the homeless student's parent or guardian or the unaccompanied youth. If the student is sent to a school other than the school of origin or a school requested by the parent or guardian, a written explanation, including a statement regarding the right to appeal, will be provided to the homeless student's parent or guardian or the unaccompanied youth.

The Board of Education requires these rights and the dispute process be communicated to the parent or guardian of the homeless student or unaccompanied youth.

In addition to notifying the parent or guardian of the homeless student or unaccompanied youth of the rights described above, the District shall post public notice of educational rights of children and youth experiencing homelessness in each school.

At the request of the parent or guardian, or in the case of an unaccompanied youth, the local homeless liaison, transportation shall be provided for a homeless student to and from the school of origin as follows:

- A. If the homeless student continues to live in the School District in which the school of origin is located, transportation will be provided in accordance with District policy/administrative guidelines.

- B. If the homeless student moves to an area served by another district, though continuing his/her education at the school of origin, the district of origin and the district in which the student resides must agree upon a method to apportion responsibility and costs for transportation to the school of origin. If the districts cannot agree upon such a method, the responsibility and costs must be shared equally.

The superintendent will appoint a Liaison for Homeless Children who will perform the duties as assigned by the superintendent. Additionally, the Liaison will coordinate and collaborate with the State Coordinator for the Education of Homeless Children and Youth as well as with community and school personnel responsible for the provision of education and related services to homeless children and youths.

The homeless liaison will assist, to the extent feasible, the homeless students and their parent(s) or guardian(s) or unaccompanied homeless students in their efforts to provide documentation to meet State and local requirements for entry into school.

All records for homeless students shall be maintained and available in a timely fashion and can be transferred promptly as necessary.

No Board policy, administrative procedure, or practice will be interpreted or applied in such a way as to inhibit the enrollment, attendance, or school success of homeless children. For additional information, contact the liaison for Homeless Students at 216.865.4719.

STUDENT RECORDS

In order to provide appropriate educational services and programming, the Board of Education must collect, retain, and use information about individual students. Simultaneously, the Board recognizes the need to safeguard students' privacy and restrict access to students' personally identifiable information.

Student "personally identifiable information" ("PII") includes, but is not limited to: the student's name; the name of the student's parent or other family members; the address of the student or student's family; a personal identifier, such as the student's social security number, student number, or biometric record; other indirect identifiers, such as the student's date of birth, place of birth, and mother's maiden name; other information that, alone or in combination, is linked or linkable to a specific student that would allow a reasonable person in the school community, who does not have personal knowledge of the relevant circumstances, to identify the student with reasonable certainty; or information requested by a person who the District reasonably believes knows the identity of the student to whom the education record relates.

The Board is responsible for the records of all students who attend or have attended schools in this District. Only records mandated by the State or Federal government and/or necessary and relevant to the function of the School District or specifically permitted by this Board will be compiled by Board employees.

In all cases, permitted, narrative information in student records shall be objectively-based on the personal observation or knowledge of the originator.

Student records shall be available only to students and their parents, eligible students, designated school officials who have a legitimate educational interest in the information, or to other individuals or organizations as permitted by law.

The term "parents" includes legal guardians or other persons standing in loco parentis (such as a grandparent or stepparent with whom the child lives, or a person who is legally responsible for the welfare of the child). The term "eligible student" refers to a student who is eighteen (18) years of age or older, or a student of any age who is enrolled in a postsecondary institution.

Both parents shall have equal access to student records unless stipulated otherwise by court order or law. In the case of eligible students, parents may be allowed access to the records without the student's consent, provided the student is considered a dependent under section 152 of the Internal Revenue Code.

A school official is a person employed by the Board as an administrator, supervisor, teacher/instructor (including substitutes), or support staff member (including health or medical staff and law enforcement unit personnel); and a person serving on the Board. The Board further designates the following individuals and entities as "school officials" for the purpose of FERPA:

- A. persons or companies with whom the Board has contracted to perform a specific task (such as an attorney, auditor, insurance representative, or medical consultant), and
- B. contractors, consultants, volunteers or other parties to whom the Board has outsourced a service or function otherwise performed by the Board employees (e.g. a therapist, authorized information technology (IT) staff, and approved online educational service providers)

The above-identified outside parties must (a) perform institutional services or functions for which the Board would otherwise use its employees, (b) be under the direct control of the Board with respect to the use and maintenance of education records, and (c) be subject to the requirements of 34 C.F.R. 99.33(a) governing the use and re-disclosure of PII from education records.

Finally, a parent or student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his/her tasks (including volunteers) is also considered a "school official" for purposes of FERPA provided s/he meets the above-referenced criteria applicable to other outside parties.

"Legitimate educational interest" is defined as a "direct or delegated responsibility for helping the student achieve one (1) or more of the educational goals of the District" or if the record is necessary in order for the school official to perform an administrative, supervisory, or instructional task or to perform a service or benefit for the student or the student's family. The Board directs that reasonable and appropriate methods (including but not limited to physical and/or technological access controls) are utilized to control access to student records and to make certain that school officials obtain access to only those education records in which they have legitimate educational interest.

The Board authorizes the administration to:

- A. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a private or public school or school district in which a student of this District is enrolled, seeks or intends to enroll, or is instructed to enroll, on a full-time or part-time basis, upon condition that:
 - 1. a reasonable attempt is made to notify the student's parent or eligible student of the transfer (unless the disclosure is initiated by the parent or eligible student; or the Board's annual notification - Form 8330 F9 - includes a notice that the Board will forward education records to other agencies or institutions that have requested the records and in which the student seeks or intends to enroll or is already enrolled so long as the disclosure is for purposes related to the student's enrollment or transfer);

2. the parent or eligible student, upon request, receives a copy of the record; and
 3. the parent or eligible student, upon request, has an opportunity for a hearing to challenge the content of the record;
- B. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a juvenile detention facility in which the student has been placed, or a juvenile court that has taken jurisdiction of the student;
 - C. forward student records, including disciplinary records with respect to suspensions and expulsions, upon request to a public school or school district in which a student in foster care is enrolled; Such records shall be transferred within one (1) school day of the enrolling school's request;
 - D. provide "personally-identifiable" information to appropriate parties, including parents of an eligible student, whose knowledge of the information is necessary to protect the health or safety of the student or other individuals, if there is an articulable and significant threat to the health or safety of a student or other individuals, considering the totality of the circumstances;
 - E. report a crime committed by a child to appropriate authorities, and, with respect to reporting a crime committed by a student with a disability, to transmit copies of the student's special education and disciplinary records to the authorities for their consideration;
 - F. release de-identified records and information in accordance with Federal regulations;
 - G. disclose personally identifiable information from education records, without consent, to organizations conducting studies "for, or on behalf of" the District for purposes of developing, validating or administering predictive tests, administering student aid programs, or improving instruction;

Information disclosed under this exception must be protected so that students and parents cannot be personally identified by anyone other than representative of the organization conducting the study, and must be destroyed when no longer needed for the study. In order to release information under this provision, the District will enter into a written agreement with the recipient organization that specifies the purpose of the study. (See Form 8330 F14.) Further, the following personally identifiable information will not be disclosed to any entity: a student or his/her family member's social security number(s); religion; political party affiliation; voting history; or biometric information.

- H. disclose personally identifiable information from education records without consent, to authorized representatives of the Comptroller General, the Attorney General, and the Secretary of Education, as well as state and local educational authorities;

The District will verify that the authorized representative complies with FERPA regulations.

The Board will comply with a legitimate request for access to a student's records within a reasonable period of time but not more than forty-five (45) days after receiving the request or within such shorter period as may be applicable to students with disabilities. Upon the request of the viewer, a record shall be reproduced, unless said record is copyrighted, or otherwise restricted, and the viewer may be charged a fee equivalent to the cost of handling and reproduction. Based upon reasonable requests, viewers of education records will receive explanation and interpretation of the records.

The Board shall maintain a record of each request for access and each disclosure of personally identifiable information. Such disclosure records will indicate the student, person viewing the record, their legitimate interest in the information, information disclosed, date of disclosure, and date parental/eligible student consent was obtained (if required).

Only "directory information" regarding a student shall be released to any person or party, other than the student or his/her parent, without the written consent of the parent, or, if the student is an eligible student, without the written consent of the student, except to those persons or parties stipulated by the Board's policy and administrative guidelines and/or those specified in the law.

DIRECTORY INFORMATION

School-assigned e-mail accounts shall not be released as directory information beyond this/these limited purpose(s) and to any person or entity but the specific online educational service provider and internal users of the District's Education Technology.

Directory information shall not be provided to any organization for profit-making purposes.

Parents and eligible students may refuse to allow the Board to disclose any or all of such "directory information" upon written notification to the Board within ten (10) days after receipt of the Superintendent's annual public notice.

In accordance with Federal and State law, the Board shall release the names, addresses, and telephone listings of secondary students to a recruiting officer for any branch of the United States Armed Forces or an institution of higher education who requests such information. A secondary school student or parent of the student may request in writing that the student's name, address, and telephone listing not be released without prior consent of the parent(s)/eligible student. The recruiting officer is to sign a form indicating that "any information received by the recruiting officer shall be used solely for the purpose of informing students about military service and shall not be released to any person other than individuals within the recruiting services of the Armed Forces." The Superintendent is authorized to charge mailing fees for providing this information to a recruiting officer.

Whenever consent of the parent(s)/eligible student is required for the inspection and/or release of a student's health or education records or for the release of "directory information," either parent may provide such consent unless agreed to otherwise in writing by both parents or specifically stated by court order. If the student is under the guardianship of an institution, the Superintendent shall appoint a person who has no conflicting interest to provide such written consent.

The Board may disclose "directory information," on former students without student or parental consent, unless the parent or eligible student previously submitted a request that such information not be disclosed without their prior written consent.

The Board shall not permit the collection, disclosure, or use of personal information collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose).

INSPECTION OF INFORMATION COLLECTION INSTRUMENT

The parent of a student or an eligible student has the right to inspect upon request any instrument used in the collection of personal information before the instrument is administered or distributed to a student. Personal information for this section is defined as individually identifiable information

including a student or parent's first and last name, a home or other physical address (including street name and the name of the city or town), a telephone number, or a Social Security identification number. In order to review the instrument, the parent or eligible student must submit a written request to the building principal at least ten (10) calendar days before the scheduled date of the activity. The instrument will be provided to the parent or eligible student within ten (10) calendar days of the principal receiving the request.

The superintendent shall directly notify the parent(s) of a student and eligible students, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when such activities are scheduled or expected to be scheduled.

This section does not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating, or providing educational products or services for, or to, students or educational institutions, such as the following:

- A. College or other postsecondary education recruitment, or military recruitment.
- B. Book clubs, magazine, and programs providing access to low-cost literary products.
- C. Curriculum and instructional materials used by elementary and secondary schools.
- D. Tests and assessments used by elementary and secondary schools to provide cognitive, evaluative, diagnostic, clinical, aptitude, or achievement information about students (or to generate other statistically useful data for the purpose of securing such tests and assessments) and the subsequent analysis and public release of the aggregate data from such tests and assessments.
- E. The sale by students of products or services to raise funds for school-related or education-related activities.
- F. Student recognition programs.

The superintendent is directed to prepare administrative guidelines so students and parents are adequately informed each year regarding their rights to:

- A. Inspect and review the student's education records;
- B. Request amendments if the parent believes the record is inaccurate, misleading, or violates the student's privacy rights;
- C. Consent to disclosures of personally-identifiable information contained in the student's education records, except to those disclosures allowed by the law;
- D. Challenge Board noncompliance with a parent's request to amend the records through a hearing;
- E. File a complaint with the United States Department of Education;
- F. Obtain a copy of the Board's policy and administrative guidelines on student records.

The superintendent shall also develop procedural guidelines for:

- A. The proper storage and retention of records including a list of the type and location of records;
- B. Informing Board employees of the Federal and State laws concerning student records.

The Board authorizes the use of the microfilm process or electromagnetic processes of reproduction for the recording, filing, maintaining, and preserving of records.

No liability shall attach to any member, officer, or employee of this Board as a consequence of permitting access or furnishing student records in accordance with this policy and regulations.

Any entity receiving personally identifiable information pursuant to a study, audit, evaluation or enforcement/compliance activity must comply with all FERPA regulations. Further, such an entity must enter into a written contract with the Board of Education delineating its responsibilities in safeguarding the disclosed information. Specifically, the entity must demonstrate the existence of a sound data security plan or data stewardship program, and must also provide assurances that the personally identifiable information will not be disclosed without prior authorization from the Board. Further, the entity conducting the study, audit, evaluation or enforcement/compliance activity is required to destroy the disclosed information once it is no longer needed or when the timeframe for the activity has ended, as specified in its written agreement with the Board of Education. See Form 8330 F14 and Form 8330 F16 for additional contract requirements.

SAFE AT HOME/ADDRESS CONFIDENTIALITY PROGRAM

If a parent (or adult student), presents information to the District certifying that the parent (or adult student), his/her child, or a member of the parent's household is a participant in the Safe at Home/Address Confidentiality Program administered by the Secretary of State, the Board shall refrain from including the student's actual/confidential residential address in any student records or files (including electronic records and files) or disclosing the student's actual/confidential residential address when releasing student records. Since student records are available to non-custodial parents, designated school officials who have a legitimate educational interest in the information, and other individuals or organizations as permitted by law (including the public in some situations), the Board shall only list the address designated by the Secretary of State to serve as the student's address in any student records or files, including electronic records and files. Further, the Board shall use the student's designated address for any and all communications and correspondence between the Board and the parent(s) of the student (or adult student). The student's actual/confidential residential address shall be maintained in a separate confidential file that is not accessible to the public or any employees without a legitimate purpose.

Although the student's actual/confidential address will not be available for release as directory information, the parent (or adult student) may also request that the student's name and telephone number be withheld from any release of directory information. Additionally, if applicable, the student's parent's school, institution of higher education, business, or place of employment (as specified on an application to be a program participant or on a notice of change of name or address) shall be maintained in a confidential manner.

If a non-custodial parent presents a subpoena or court order stating that s/he should be provided with copies or access to a student's records, the District will redact the student's confidential address and telephone number from the student's records before complying with the order or subpoena. The District will also notify the custodial/residential parent of the release of student records in accordance with the order or subpoena.

The intentional disclosure of student's actual/confidential residential address is prohibited. Any violations could result in disciplinary action or criminal prosecution.

Such charges would be made on expendable items such as magazines, workbook materials, paperback selections, and laboratory supplies, and materials, for clubs, independent study or special projects, and District-sponsored trips. Any waiver of fees shall be made pursuant to Policy 6152.01.

A charge shall not exceed the combined cost of the outside service provided or material used, freight and/or handling charges. Money received from resale of such material, if any, shall be returned to the Treasurer with an accurate accounting of all transactions.

Any fees, fines, and/or other charges collected by members of the staff totaling more than \$1,000.00 or that cannot be safeguarded shall be turned in to the Treasurer within one (1) business day after collection. Any fees, fines, and/or charges collected by members of the staff that total less than \$1,000.00 and that can be safeguarded shall be turned in to the Treasurer within three (3) business days after collection. A place such as the building safe or a locked file cabinet shall be designated in each building and shall be used for securing these monies until they are deposited with the Treasurer. At no time shall any staff member place public monies in his/her own banking accounts or commingle public monies with their own. Except in cases of extenuating circumstances, i.e., the inability to access the secure place in the building, public monies should not be taken to a person's place of residence.

In accordance with O.R.C. 3313.642, failure to pay fees and fines may result in the withholding of grades and credit. In the event the above course of action does not result in the fee being collected, the Board authorizes the Treasurer to take the student and/or his/her parents to Small Claims Court for collection. Under no circumstances will the Board withhold the grades, credits, official transcripts, diploma, IEPs, or Section 504 Plans of a student for nonpayment of fees for materials used in the course of instruction, if a complaint has been filed at any time in a juvenile court alleging the student is an abused, neglected, or dependent child, or if the student has been adjudicated an abused, neglected, or dependent child. Further the Board will transfer immediately the grades, credits, official transcripts, IEPs, or Section 504 Plans of a student upon the receipt of either another district's or school's request for those records pursuant to O.R.C. 3313.672, or a juvenile judge's order under O. R.C. 2151.272. The superintendent may request a copy of any order regarding a child's custody or placement issued pursuant to a complaint filed under O. R.C. 2151.27. The Board, however, will not withhold records required to be transferred pursuant to this paragraph pending receipt of a copy of the order.

Annually the District will report to the Ohio Department of Education the number of students for whom it sent transcripts pursuant to O.R.C. 3313.642(D), and the total amount of unpaid fees lost due to compliance with that provision.

Nothing in this policy restricts the right of access of a parent or student to school records or to receive copies of such records, as required by Federal and State laws.

STUDENT FUNDRAISING

Students participating in school-sponsored groups and activities will be allowed to solicit funds from other students, staff members, and members of the community in accordance with school guidelines. The following general rules will apply to all fundraisers.

1. Students may not engage in house-to-house canvassing for any fundraising activity.
2. Students may not participate in a fundraising activity conducted by a parent group, booster club, or community organization on school property without the approval of the principal.

Students may not sell any item or service in school without the prior approval of the principal. Violation of this policy may lead to disciplinary action.

STUDENT VALUABLES

Students should not bring items of value to school. Items such as jewelry, expensive clothing, electronic equipment, and the like, are tempting targets for theft and extortion. The School is not liable for any loss or damage to personal valuables.

MEAL SERVICE

The Board of Education shall provide cafeteria facilities in all school facilities where space and facilities permit, and will provide food service for the purchase and consumption of lunch for all students. The Board shall annually encumber the funds needed to operate the program.

The food-service program shall comply with Federal and State regulations pertaining to the selection, preparation, consumption, and disposal of food and beverages as well as to the fiscal management of the program.

The Board shall approve and implement nutrition standards governing the types of food and beverages that may be sold on the premises of its schools and shall specify the time and place each type of food or beverage may be sold. In adopting such standards, the Board shall:

- A. Consider the nutritional value of each food or beverage
- B. Consult with a dietitian licensed under O.R.C. Chapter 4759, a dietetic technician registered by the commission on dietetic registration, or a school nutrition specialist certified or credentialed by the school nutrition association; and
- C. Consult and incorporate to the maximum extent possible the dietary guidelines for American jointly developed by the United States Department of Agriculture (USDA) and the United States Department of Health and Human Services

No food or beverage may be sold on any school premises except in accordance with the standards approved by the Board.

In addition, as required by law, a food safety program that is based on the principles of the Hazard Analysis and Critical Control Point (HACCP) system shall be implemented with the intent of preventing food-borne illnesses. For added safety and security, access to the facility and the food stored and prepared therein shall be limited to food service program staff and other authorized persons.

The Board shall provide a Federal food service program for students during summer intervention programs that are mandated under Federal law. If the Board determines it is unable to provide a Federal food service program during the summer, for financial reasons, the Board will communicate the decision to its residents in a manner it determines to be appropriate.

During all times while the food service program is operating and students are being served food, at least one (1) employee shall be present in the area in which the food is being consumed who has received instruction in methods to prevent choking and demonstrated an ability to perform the Heimlich maneuver.

Lunches sold by the school may be purchased by students and staff members and community residents in accordance with administrative guidelines established by the superintendent. Lunches may be made available, free of charge, to senior citizens who are serving as volunteers to the District.

The operation and supervision of the food-service program shall be the responsibility of the Business Manager. In accordance with Federal law, the Business Manager shall take such actions as are necessary to obtain a minimum of two (2) food safety inspections per school year, which are conducted by the State or local governmental agency responsible for food safety inspections. The report of the most recent inspection will be posted in a publicly visible location, and a copy of the report will be available upon request.

A periodic review of the food-service accounts shall be made by the Treasurer. Any surplus funds from the National School Lunch Program shall be used to reduce the cost of the service to students or to purchase cafeteria equipment. Surplus funds from a-la-carte foods may accrue to the food-service program, the school.

In accordance with the nutritional standards adopted by the Board, the placement of vending machines in any classroom where students are provided instruction, unless the classroom is also used to serve meals to students, is prohibited.

No foods or beverages, other than those associated with the District's food-service program, are to be sold during food-service hours. The District shall serve only nutritious food in accordance with the nutritional standards adopted by the Board. Foods and beverages in competition with the District's food-service program may only be sold in accordance with Board Policy 8550.

The superintendent is responsible for implementing the food service program in accordance with the adopted nutrition standards and shall provide a report regarding the District's compliance with the standards at one of its regular meetings annually.

Children, eligible for free or reduced-price meals, shall be determined by the criteria established by the Child Nutrition Program and National School Lunch Act. These criteria are issued annually by the Federal government through the State Department of Education. Applications for the School's Free and Reduced-Priced Meal program are distributed to all students. If a student does not receive an application form and believes he/she is eligible, contact the school office.

SAFETY AND SECURITY

Student safety is the responsibility of both students and staff. Staff members are familiar with emergency procedures such as evacuations, fire and tornado drills, safety drills in the event of a terrorist or other violent attack, and accident reporting procedures. If a student is aware of any dangerous situation or accident, he/she must notify a staff person immediately.

State law requires all students have an emergency medical authorization completed and signed by a parent or guardian on file in the school office.

Students with specific health care needs should deliver written notice about such needs, along with physician documentation, to the school office.

- A. All visitors must report to and sign in at the office when they arrive at school. Upon leaving, visitors are to sign out.
- B. All visitors are given and required to wear a building pass while they are in the building. The pass/badge is to be returned to the school at the time of sign-out.
- C. Staff is expected to question people in the building whom they do not recognize and who are not wearing a building pass, and to question people who are "hanging around" the building after hours.
- D. Students and staff are expected to immediately report to a teacher or administrator any suspicious behavior or situation that makes them uncomfortable.
- E. As many unneeded outside doors as possible are locked during the school day.
- F. Portions of the building not be needed after the regular school day are closed off.
- G. A person is stationed at the main entrance of the building to greet visitors and guide them to the office.
- H. Students, at the High School are required to carry identification cards with them at all times in school or on school property.

- I. All district employees are to wear photo-identification badges while in District schools and offices or on District property.

FIRE, TORNADO AND SAFETY DRILLS

The school complies with all fire safety laws and will conduct fire drills in accordance with state law. The school conducts tornado drills during the tornado season following procedures prescribed by the state. Teachers will provide specific instructions on how to proceed in the case of fire or tornado and will oversee the safe, prompt, and orderly evacuation of the building in such cases.

Safety drills will be conducted twice per school year. Teachers will provide specific instruction on the appropriate procedures to follow in situations where students must be secured in their building rather than evacuated. These situations can include a terrorist threat, a person in possession of a deadly weapon on school property, or other acts of violence.

EMERGENCY CLOSING AND DELAYS

If a school must be closed or the opening delayed because of inclement weather or other conditions, the district will notify local television stations. Information concerning school closings or delays can also be found on the district's web page at www.warrensville.k12.oh.us.

Parents will be notified of school closings or delays via a pre-recorded telephone message delivered to the phone number on file.

Parents and students are responsible for knowing about emergency closings and delays.

PREPAREDNESS FOR TOXIC AND ABESTOS HAZARDS

The School is concerned for the safety of students and attempts to comply with all Federal and State Laws and Regulations to protect students from hazards that may result from industrial accidents beyond the control of school officials or from the presence of asbestos materials used in previous construction. A copy of the School District's *Preparedness for Toxic Hazard and Asbestos Hazard Policy* and asbestos management plan will be made available for inspection at the Board offices upon request.

VISITORS

The Board of Education welcomes and encourages visits to school by parents, other adult residents of the community and interested educators. But in order for the educational program to continue undisturbed when visitors are present and to prevent the intrusion of disruptive persons into the schools, it is necessary to invoke visitor controls.

The superintendent or principal has the authority to prohibit the entry of any person to a school of this District or to expel any person when there is reason to believe the presence of such person would be detrimental to the good order of the school. If such an individual refuses to leave the school grounds or creates a disturbance, the principal is authorized to request from the local law enforcement agency whatever assistance is required to remove the individual.

The superintendent shall promulgate such administrative guidelines as are necessary for the protection of students and employees of the District from disruption to the educational program or the efficient conduct of their assigned tasks.

If a person wishes to confer with a member of the staff, he/she should call for an appointment prior to coming to the School in order to schedule a mutually convenient meeting time.

USE OF THE LIBRARY

The library is available to students throughout the school day. Passes may be obtained from a student's teacher. Books on the shelves may be checked out for a period of fourteen days. To check out any other materials, contact the building administrator.

In order to avoid late fees, all materials checked out of the library must be returned to the library within fourteen days.

USE OF SCHOOL EQUIPMENT AND FACILITIES

Students must receive the permission of the teacher before using any equipment or materials in the classroom and the permission of the principal to use any other school equipment or facility. Students will be held responsible for the proper use and protection of any equipment or facility they are permitted to use.

LOST AND FOUND

A lost and found area is available in each school. Students who have lost items should check there and may retrieve their items if they give a proper description. Unclaimed items will be given to charity at the close of the school year.

USE OF OFFICE TELEPHONES

Office telephones may not be used for personal calls. Except in an emergency, students will not be called to the office to receive a telephone call.

Telephones are available in the school for students to use when they are not in class. Students are not to use telephones to call parents to receive permission to leave school. Office personnel will initiate all calls on behalf of a student seeking permission to leave school.

USE OF WIRELESS COMMUNICATION DEVICES

Students may use personal communication devices (PCDs) before and after school only, not during lunch or in between classes. Devices should not be heard or seen during the school day. Use of PCDs, except those approved by a teacher or administrator, at any other time is prohibited and stored out of sight. Devices such as (cellphones, headphones, iPods, etc.) can be confiscated by staff and only returned to a parent/adult. Repeated cellphone policy violation can result in further disciplinary action. The school is not responsible for lost or stolen PCD's (cellphones, headphones, iPods, etc.).

For purposes of this policy, "personal communication device" includes computers, tablets (e.g., iPads and similar devices), electronic readers ("e-readers"; e.g., Kindles and similar devices), cell phones (e.g., mobile/cellular telephones, smartphones (e.g., BlackBerry, iPhone, Android devices, Windows Mobile devices, etc.)), telephone paging devices (e.g., beepers or pagers), and/or other web-enabled devices of any type. Students may not use PCDs on school property or at a school-sponsored activity to access and/or view Internet websites that are otherwise blocked to students at school. Students may use PCDs while riding to and from school on a school bus or other Board-provided vehicles or on a school bus or Board-provided vehicle during school-sponsored activities, at the discretion of the bus driver, classroom teacher or sponsor/advisor/coach. Distracting behavior that creates an unsafe environment will not be tolerated.

Also, during after school activities, PCDs shall be powered completely off and stored out of sight when directed by the administrator or sponsor.

Under certain circumstances, a student may keep his/her PCD "On" with prior approval from the building principal.

Except as authorized by a teacher, administrator or IEP team, students are prohibited from using PCDs during the school day, including while off-campus on a field trip, to capture, record and/or transmit the words or sounds (i.e., audio) and/or images (i.e., pictures/video) of any student, staff member or other person. Using a PCD to capture, record and/or transmit audio and/or pictures/video of an individual without proper consent is considered an invasion of privacy and is not permitted. Students who violate this provision and/or use a PCD to violate the privacy rights of another person may have their PCD confiscated and held until the end of the school year and may be directed to delete the audio and/or picture/video file while the parent/guardian is present. If the violation involves potentially illegal activity the confiscated-PCD may be turned-over to law enforcement.

PCDs, including but not limited to those with cameras, may not be activated or utilized at any time in any school situation where a reasonable expectation of personal privacy exists. These locations and circumstances include, but are not limited to, classrooms, gymnasiums, locker rooms, shower facilities, rest/bathrooms, and any other areas where students or others may change clothes or be in any stage or degree of disrobing or changing clothes. The superintendent and building principals are authorized to determine other specific locations and situations where use of a PCD is absolutely prohibited.

Students shall have no expectation of confidentiality with respect to their use of PCDs on school premises/property.

Students may not use a PCD in any way that might reasonably create in the mind of another person an impression of being threatened, humiliated, harassed, embarrassed or intimidated. See Policy 5517.01 – Bullying and Other Forms of Aggressive Behavior. In particular, students are prohibited from using PCDs to: (1) transmit material that is threatening, obscene, disruptive, or sexually explicit or that can be construed as harassment or disparagement of others based upon their race, color, national origin, sex, sexual orientation, disability, age, religion, ancestry, or political beliefs; and (2) engage in "sexting" - i.e., sending, receiving, sharing, viewing, or possessing pictures, text messages, e-mails or other materials of a sexual nature in electronic or any other form. Violation of these prohibitions shall result in disciplinary action. Furthermore, such actions will be reported to local law enforcement and child services as required by law.

Students are also prohibited from using a PCD to capture, record, and/or transmit test information or any other information in a manner constituting fraud, theft, cheating, or academic dishonesty. Likewise, students are prohibited from using PCDs to receive such information.

Possession of a PCD by a student at school during school hours and/or during extracurricular activities is a privilege and may be forfeited by any student who fails to abide by the terms of this policy, or otherwise abuses this privilege.

Violations of this policy may result in disciplinary action and/or confiscation of the PCD. The building principal will also refer the matter to law enforcement or child services if the violation involves an illegal activity (e.g., child pornography, sexting). Discipline will be imposed on an escalating scale ranging from a warning to an expulsion based on the number of previous violations and/or the nature of or circumstances surrounding a particular violation. If the PCD is confiscated, it will be released/returned to the student's parent/guardian after the student complies with any other disciplinary consequences that are imposed, unless the violation involves potentially illegal activity in which case the PCD may be turned-over to law enforcement. A confiscated device will be marked in a removable manner with the student's name and held in a secure location in the building's central office until it is retrieved by the parent/guardian or turned-over to law enforcement. School officials will not search or otherwise tamper with PCDs in District custody unless they reasonably suspect that the search is required to discover evidence of a violation of the law or other school rules. Any search

will be conducted in accordance with Policy 5771 – Search and Seizure. If multiple offenses occur, a student may lose his/her privilege to bring a PCD to school for a designated length of time or on a permanent basis.

A person who discovers a student using a PCD in violation of this policy is required to report the violation to the building principal.

Students are personally and solely responsible for the care and security of their PCDs. The Board assumes no responsibility for theft, loss, or damage to, or misuse or unauthorized use of, PCDs brought onto its property.

Students may use school phones to contact parents/guardians during the school day.

FIELD TRIPS

The Board of Education recognizes field trips, when used for teaching and learning integral to the curriculum, are an educationally sound and important ingredient in the instructional program of the schools. Properly planned and executed field trips should:

- A. Supplement and enrich classroom procedures by providing learning experiences in an environment outside the schools;
- B. Arouse new interests among students;
- C. Help students relate school experiences to the reality of the world outside of school;
- D. Bring the resources of the community - natural, artistic, industrial, commercial, governmental, educational - within the student's learning experience;
- E. Afford students the opportunity to study real things and real processes in their actual environment.

Students will not be charged for the cost of transportation to and from educational field trips on school days. Students may be assessed the cost for transportation to and from educational field trips on non-school days.

Students may be charged fees, including, but not limited to, admission fees, for District-sponsored trips; but, no student shall be denied participation for financial inability, nor shall nonparticipation be penalized academically.

Students on all District-sponsored trips remain under the supervision of this Board and are subject to the District's administrative guidelines.

While the District encourages students to participate in field trips, alternative assignments will be provided for any student whose parent does not give permission for the student to attend.

GRADES

Each school has a standard grading procedure, as well as additional notations that indicate work in progress or incomplete work. Grades indicate the extent to which the student has acquired and demonstrated the necessary learning. In general, students are assigned grades based upon test results, homework, projects, and classroom participation. Each teacher may place a different emphasis on these areas when determining a grade and will so inform the students at the beginning of the course. If a student is not sure how her/his grade will be determined, he/she should ask the teacher.

GRADING PERIODS

Students will receive a report card at the end of each grading period indicating their grades for each course of study for that portion of the academic term.

PROMOTION, ACCELERATION AND RETENTION

The promotion and retention provisions of this policy shall be in compliance with the terms of Ohio's Third Grade Reading Guarantee (Policy 2623.02).

A student will be promoted to the succeeding grade level when he/she has:

- A. Completed the course and State-mandated requirements at the presently assigned grade
- B. In the opinion of the professional staff, achieved the instructional objectives set for the present grade
- C. Demonstrated sufficient proficiency to permit him/her to move ahead in the educational program of the next grade
- D. Demonstrated the degree of social, emotional, and physical maturation necessary for a successful learning experience in the next grade

Academic acceleration may involve whole-grade acceleration or individual subject acceleration. Academic acceleration occurs when a student is not only doing the caliber of work necessary to be promoted to the next grade or enrolled in the next course in the academic sequence, but also demonstrates the ability to do the caliber of work required of students in the next grade level/subject/course. An acceleration evaluation committee will determine whether the student will be permitted to skip a grade level (i.e., whole-grade acceleration), or take a subject at a higher grade level or skip a course in the usual and customary academic sequence (i.e., individual subject acceleration).

Upon referral, the student's principal (or his/her designee) shall convene an acceleration evaluation committee to determine the appropriate learning environment for the referred student. This committee shall include the following:

- A. A parent/guardian, or a representative designated by parent/guardian
- B. A gifted education coordinator or gifted intervention specialist, or if neither is available, a school psychologist or guidance counselor with expertise in the appropriate use of academic acceleration may be substituted
- C. A principal or assistant principal from the child's current school
- D. A current teacher of the referred student
- E. A teacher at the grade level or course to which the referred student may be accelerated

A student may be retained at his/her current grade level based on the following criteria:

- A. Require the recommendation of the relevant staff members for promotion, placement, or retention;
- B. Require parents are informed in advance of the possibility of retention of a student at a grade level;
- C. Assure efforts will be made to remediate the student's difficulties before he/she is retained;
- D. Require a student be retained if he/she is truant for ten percent (10%) or more of the required school days and has failed at least two (2) courses of study, unless the principal and the teachers of the failed subjects determine the student is academically prepared to be promoted;

- E. Assign to the principal the final responsibility for determining the promotion, placement, or retention of each student;
- F. Provide parents the opportunity to request the promotion, placement, or retention of their child.

A list of the approved Educational Options is available in the guidance office. In order to participate in an Educational Option, the student must first submit an application for approval by the superintendent. Any interested student should contact the high school guidance office to obtain the necessary information.

RECOGNITION OF STUDENT ACHIEVEMENT

Students who display significant achievements during the course of the year are recognized for their accomplishments. Areas that may merit recognition include, but are not limited to, academics, athletics, performing arts, citizenship, and volunteerism. Recognition for such activities is initiated by the staff and coordinated by each school.

HOMEWORK

The Board of Education acknowledges the educational validity of out-of-school assignments as adjuncts to and extensions of the instructional program of the schools.

"Homework" shall refer to those assignments to be prepared outside of the school by the student or independently while in attendance at school.

The assignment of homework shall be according to these guidelines:

- A. Homework should be a properly planned part of the curriculum
- B. Homework should help develop the student's sense of responsibility by providing an opportunity for the exercise of independent work and judgment
- C. The number, frequency, and degree of difficulty of homework assignments should be based on the ability and needs of the student and take into account other activities which make a legitimate claim on the student's time
- D. As a valid educational tool, homework should be assigned with clear direction and its product carefully evaluated
- E. The schools should recognize the role of parents by suggesting ways in which parents can assist the school in helping a student carry out assigned responsibilities
- F. Homework should always serve a valid learning purpose; it should never be used as a punitive measure.

COMPUTER TECHNOLOGY AND NETWORKS

The district provides Internet services to its students. The district's Internet system has a limited educational purpose, and has not been established as a public access service or a public forum. Student use of the district's computers, network and Internet services/connection (Network) are governed by the following principles and guidelines as well as the Student Code of Conduct. Users have a limited privacy expectation in the content of their personal files and records of their online activity while on the Network.

Parents and students are advised the Board may not be able to technologically limit access through the Board's Internet connection to only those services that have been authorized for the purpose of

instruction, study and research related to the curriculum. Because it serves as a gateway to any publicly available file server in the world, the Internet opens classrooms and students to electronic information resources that have not been screened by educators for use by students of various ages. The district utilizes a Technology Protection Measure, which is a specific technology that will protect against (e.g., filter or block) access to visual displays/depictions that are obscene, pornographic, and materials that are harmful to minors, as defined by the Children's Internet Protection Act. At the discretion of the Board or the superintendent, the Technology Protection Measure may be configured to protect against access to other material considered inappropriate for students to access.

The district further utilizes software and/or hardware to monitor online activity of students to restrict access to child pornography and other material that is obscene, objectionable, inappropriate and/or harmful to minors. Nevertheless, parents are advised that a determined user may be able to gain access to services on the Internet that are not authorized for educational purposes. In fact, it is impossible to guarantee students will not gain access through the Internet to information and communications that they and/or their parents may find inappropriate, offensive, objectionable or controversial. Parents assume risks by consenting to allow their child to participate in the use of the Internet. Parents of minors are responsible for setting and conveying the standards that their children should follow when using the Internet. The district supports and respects each family's right to decide whether to apply for independent student access to the Internet.

Students are encouraged to use the Network for educational purposes. Use of the Network is a privilege, not a right. When using the Network, students must conduct themselves in a responsible, efficient, ethical, and legal manner. Students are responsible for good behavior on the district's computers/network and the Internet just as they are in classrooms, school hallways, and other school premises and school sponsored events. Communications on the Internet are often public in nature. General school rules for behavior and communication apply. Unauthorized or inappropriate use of the Network, including any violation of these rules, may result in cancellation of the privilege, disciplinary action consistent with the Student Code of Conduct, and/or civil or criminal liability. Prior to accessing the Network, students must sign the Student Network and Internet Acceptable Use and Safety Agreement. Parent permission is required for minors. Parents are encouraged to discuss their values with their children so that students can make decisions regarding their use of the Network that is in accord with their personal and family values, in addition to the Board's standards. ***If a student damages or steals school technology device(s) they will receive appropriate consequences along with parent contact and financial responsibility for device replacement.***

TRANSMISSION OF RECORDS AND OTHER COMMUNICATIONS

Parents/Guardians have to complete and return to the District Form in order to authorize the staff to communicate with the parent/guardian via facsimile and/or electronic mail ("e-mail"). Parents who elect to communicate with a staff member via e-mail are required to keep the District informed of any changes to their e-mail address.

STUDENT ASSESSMENT

Unless exempted, each student must pass all portions of the state-mandated assessment tests as a requirement for graduation. The tests will be administered twice a year until the student passes all parts of the test. Students are only required to retake those parts of the test they have not yet passed. While the school district does schedule make-up dates for testing, students should avoid unnecessary absences.

Additional group tests are given to students to monitor progress and determine educational mastery levels. These tests help the staff determine instructional needs.

Classroom tests are given to assess student progress and assign grades. These are selected or prepared by teachers to assess student achievement on specific objectives.

Career and interest surveys may be given to identify particular areas of student interests or talent. These are often given by the guidance staff.

College entrance testing information can be obtained from the guidance office.

SCHOOL SPONSORED CLUBS AND ACTIVITIES

Warrensville Heights City School District provides students the opportunity to broaden their learning through curricular-related activities. A curricular-related activity may be taken for credit, required for a particular course, and/or contain school subject matter.

Extra-curricular activities do not reflect the school curriculum, but are made available to students to allow them to pursue additional worthwhile activities such as recreational sports, drama, and the like.

All students are permitted to participate in the activities of their choosing, as long as they meet the eligibility requirements. Participation in these activities is a privilege and not a right, and students may be prohibited from all or part of their participation in such activities by authorized school personnel without further notice, hearing and/or appeal rights in accordance with Board Policy 5610.05.

NON SCHOOL SPONSORED CLUBS AND ACTIVITIES

Non-school-sponsored student groups may meet in the school building during non-instructional hours. The application for permission to use school facilities can be obtained from the principal. The applicant must verify the activity is being initiated by students, attendance is voluntary, no school staff person is actively involved in the event, the event will not interfere with school activities, and

non-school persons do not play a regular role in the meeting. All school rules relating to student conduct and equal opportunity to participate apply to such activities.

Membership in any fraternity, sorority, or other secret society as proscribed by law is not permitted. All groups must comply with school rules and must provide equal opportunity to participate.

ATHLETICS

Warrensville Heights High School and Middle School provide a variety of athletic activities in which students may participate provided they meet eligibility requirements established by the Board and by the Ohio High School Athletic Association (OHSAA). Participation in these activities is a privilege and not a right, and students may be prohibited from all or part of their participation in such activities by authorized school personnel without further notice, hearing and/or appeal rights in accordance with Board Policy.

ACADEMIC ELIGIBILITY

The Board shall determine the standards of eligibility to be met by all students participating in the interscholastic program. Such standards shall require each student be in good physical condition, be free of injury, and have fully recovered from illness before participating in any interscholastic athletic event.

No student may practice or compete in interscholastic athletics until the student submits a form signed by his/her parent or guardian, or by a person having care or charge of the student, affirming each has received a concussion and head injury information sheet as prepared by the Ohio Department of Health. See Form 2431 F1 and Form 2431 F2.

In addition to the eligibility requirements established by the Ohio High School Athletic Association, to be eligible for any interscholastic extra-curricular activity, a student:

- A. Must have maintained at least a 2.0 grade-point average
- B. Must not have received a failing grade in any course for the grading period prior to the grading period in which he/she wished to participate.

STUDENT EMPLOYMENT

It is recommended students not take jobs outside of school that could interfere with their success in school. If a student elects to maintain a job in addition to going to school, he/she must first contact her/his counselor to discuss any legal requirements and to obtain any required documents.

STUDENT ATTENDANCE AT SCHOOL EVENTS

Students are encouraged to attend as many after school events as possible, without interfering with their school work and home activities. Enthusiastic spectators help to build school spirit and encourage those students participating in the event.

It is strongly advised students attending evening events as nonparticipants be accompanied by a parent or adult chaperone. The Board is not responsible for supervising unaccompanied students nor will it be responsible for students who arrive without an adult chaperone.

SCHOOL ATTENDANCE POLICY

It is important for every student in Ohio to attend school every day. Missing too much school has long-term, negative effects on students, such as lower achievement and graduation rates. There are many reasons students miss school, but districts often can directly impact their students' attendance. By using data to identify and support students who may need extra support and services, districts can target supports to get students to school every day.

Regular school attendance is an important ingredient in student's academic success. Excessive absences interfere with students' progress in mastering knowledge and skills necessary to graduate from high school prepared for higher education and the workforce. To support academic success for all students, the Warrensville Heights City School district will partner with students and their families to identify and reduce barriers to regular school attendance. The district will utilize a continuum of strategies to reduce student absences including, but not limited to:

- Administering an attendance survey
- Notification of student absences to the parent or guardian through the district's Blackboard Connect (Blackboard Connect is a mass notification system that lets the district send attendance updates and emergency alerts to everyone in the district through emails, phone calls, text messages, or social media channels (a RoboCall service)
- Development and implementation of an absence intervention plan for those students who are habitually truant to school, with supportive services for students and families
- Provide counseling services
- Provide internal and suggest external social services
- Provide parenting education programs and classes
- Mediation
- Utilize intervention programs made available through juvenile authorities
- Notify the Registrar of Motor Vehicles when students are truant or excessively absent
- Referral for truancy, if applicable, with Family and Children Services or Cuyahoga Country Court of Common Pleas

Attendance

According to Board Policy 5200, the educational program offered by this District is predicated upon the presence of the student and requires continuity of instruction and classroom participation. Attendance shall be required of all students enrolled in the schools during the days and hours that the school is in session or during the attendance sessions to which s/he has been assigned.

A student in grades 9 through 12 may be considered a full-time equivalent student provided the student is enrolled in at least five (5) units of instruction, as defined by State law, per school year.

In accordance with statute, the Superintendent shall require, from the parent of each student of compulsory school age or from an adult student who has been absent from school or from class for any reason, a written statement of the cause for such absence. The Board of Education reserves the right to verify such statements and to investigate the cause of each single absence or prolonged absence.

The Board considers the following factors to be reasonable excuses for time missed at school:

- A. personal illness (a written physician's statement verifying the illness may be required)
- B. illness in the family necessitating the presence of the child
- C. quarantine of the home
- D. death in the family
- E. necessary work at home due to absence or incapacity of parent(s)/guardian(s)
- F. observation or celebration of a bona fide religious holiday

- G. out-of-state travel (up to a maximum twenty-four (24) hours per school year that the student's school is open for instruction) to participate in a District-approved enrichment or extracurricular activity

Any classroom assignment missed due to the absence shall be completed by the student.

If the student will be absent for twenty-four (24) or more consecutive hours that the student's school is open for instruction, a classroom teacher shall accompany the student during the travel period to provide the student with instructional assistance.

- H. such good cause as may be acceptable to the Superintendent
- I. medically necessary leave for a pregnant student in accordance with Policy 5751
- J. service as a precinct officer at a primary, special or general election in accordance with the program set forth in Policy 5725

Attendance need not always be within the school facilities, but a student will be considered to be in attendance if present at any place where school is in session by authority of the Board.

The Board shall consider each student assigned to a program of other guided learning experiences to be in regular attendance for the program provided that s/he reports to such staff member s/he is assigned for guidance at the place in which s/he is conducting study, and regularly demonstrates progress toward the objectives of the course of study.

The Superintendent may excuse a student over fourteen (14) years of age from attendance at school for a future limited period for the purpose of performing essential work directly or exclusively for his/her parents or guardians. Such excuse should not exceed five (5) days and may at the discretion of the Superintendent be renewed for five (5) additional days. At no time, however, shall such excuse cause a student to be absent from school for a period of more than ten (10) consecutive days.

At the discretion of the Superintendent, a student may be excused for a longer period of time than ten (10) days if a child's parent or guardian has recently died or become totally or partially incapacitated and there is no older brother or sister living in the home who is out of school. (The Superintendent may request a certificate of a physician attesting to the physical condition of the parent or guardian.)

Attendance shall be taken at the beginning of every block/period in buildings with block/period-based scheduling. Absences from a class block/period shall be accounted for to the nearest full hour.

Excessive Absences

When a student of compulsory school age is absent from school with or without legitimate excuse for thirty-eight (38) or more hours in one school month, or sixty-five (65) or more hours in a school year, the attendance officer shall notify the child's parent or guardian of the child's absences, in writing, within seven (7) school days after the date of the absence that triggered the notice requirement. At the same time written notice is given, any appropriate intervention action listed herein may be taken.

A student will be considered habitually truant if the student is of compulsory school age and absent without a legitimate excuse for thirty (30) or more consecutive hours, for forty-two (42) or more hours in one (1) school month, or for seventy-two (72) or more hours in one (1) school year.

Legitimate excuses for the absence of a student who is otherwise habitually truant include but are not limited to:

- A. the student was enrolled in another school district;
- B. the student was excused from attendance in accordance with R.C 3321.04; or
- C. the student has received an age and schooling certificate.

Absence Intervention Team

To the extent required by law as determined on an annual basis, within ten (10) days of a student becoming habitually truant, the Director of Pupil Services and/or Principal shall assign the student to an absence intervention team.

Within fourteen (14) school days after the assignment of a student to an absence intervention team, the team shall develop an intervention plan for that student in an effort to reduce or eliminate further absences. Each intervention plan shall vary based on the individual needs of the student, but the plan shall state that the attendance officer shall file a complaint not later than sixty-one (61) days after the date the plan was implemented, if the child has refused to participate in, or failed to make satisfactory progress on, the intervention plan. Within seven (7) school days after the development of the plan, reasonable efforts shall be made to provide the student's parent/guardian/custodian, with written notice of the plan.

As part of the absence intervention plan, the Superintendent and/or Principal and Director of Pupil Services may, in his/her discretion contact the appropriate juvenile court and ask to have a student informally enrolled in any alternative to adjudication described in R.C. 2151.27(G).

Each absence intervention team may vary based on the needs of each individual student but shall include a representative from the child's building, another representative from the child's building who knows the child, and the child's parent or parent's designee, or the child's guardian, custodian, guardian ad litem, or temporary custodian. The team also may include a school psychologist, counselor, or social worker.

The members of the absence intervention team shall be selected within seven (7) school days of the student meeting the habitually truant threshold. Within the same period of seven (7) school days, the Principal shall make at least three (3) meaningful, good faith attempts to secure the participation of the student's parent/guardian/custodian, guardian ad litem, or temporary custodian on that team. A good faith attempt to secure the participation of the parent shall include, but not be limited to, contacting (or attempting to contact) the parent by telephone, email, or regular mail. If the student's parent responds to any of those attempts, but is unable to participate for any reason, the Principal shall inform the parent of the parent's right to appear by designee. If seven (7) school days elapse and the student's parent/guardian/custodian, guardian ad litem, or temporary custodian fails to respond to the attempts to secure participation, the attendance officer shall investigate whether the failure to respond triggers mandatory abuse or neglect reporting to the public children services agency. At the same time, the absence intervention team shall continue to develop an intervention plan for the child notwithstanding the absence of the child's parent/guardian/custodian, guardian ad litem, or temporary custodian.

Intervention Strategies

In order to address the attendance practices of a student who is habitually truant, the intervention team may, as part of an intervention plan, take any of the following intervention actions:

- A. provide counseling to the student
- B. request or require the student's parent to attend a parental involvement program
- C. request or require a parent to attend a truancy prevention mediation program
- D. notify the Registrar of Motor Vehicles of the student's absences
- E. take appropriate legal action
- F. assignment to an alternative school (Note: If the District has established an alternative school, it must appear as an alternative intervention strategy.)

In the event that a student becomes habitually truant within twenty-one (21) school days prior to the last day of instruction of a school year, the Director of Pupil Services may, in his/her discretion, assign one school official to work with the child's parent/guardian/custodian, guardian ad litem, or temporary custodian to develop an absence intervention plan during the summer.

The absence intervention process shall commence upon the first day of instruction of the next school year.

Reporting Requirements

The attendance officer shall file a complaint in the juvenile court against a student on the sixty-first (61st) day after the implementation of an absence intervention plan or other intervention strategies, provided that all of the following apply:

- A. The student is habitually truant.
- B. The school district or school has made meaningful attempts to re-engage the student through the absence intervention plan, other intervention strategies, and any offered alternatives to adjudication, if applicable.
- C. The student has refused to participate in or failed to make satisfactory progress on the plan, as determined by the absence intervention team, or any offered intervention strategies or alternative to adjudication.

If the student, at any time during the implementation phase of the absence intervention plan or other intervention strategies, is absent without legitimate excuse for thirty (30) or more consecutive hours or forty-two (42) or more hours in one school month, the attendance officer shall file a complaint in juvenile court against that student, unless the absence intervention team has determined that the student has made substantial progress on the absence intervention plan.

In the event that the sixty-first (61st) day after the implementation of the absence intervention plan or other intervention strategies falls on a day during the summer months, the attendance officer may extend the implementation of the plan and delay the filing of the complaint for an additional thirty (30) days from the first day of instruction of the next school year.

The Superintendent is authorized to establish an educational program for parents of truant students which is designed to encourage parents to ensure that their children attend school regularly. Any

parent who does not complete the program is to be reported to law enforcement authorities for parental education neglect, a fourth class misdemeanor if found guilty.

Whenever any student of compulsory school age has sixty (60) consecutive hours in a single month or a total of ninety (90) hours of unexcused absence from school during the school year, s/he will be considered habitually absent. The Board authorizes the Superintendent to inform the student and his/her parents, guardian, or custodian of the record of absences without legitimate excuse as well as the District's intent to notify the Registrar of Motor Vehicles, if appropriate, and the Judge of the Juvenile Court of the student's unexcused absences.

If a student who is habitually truant violates the order of a juvenile court regarding the student's prior adjudication as an unruly child for being a habitual truant, s/he may further be adjudicated as a delinquent child.

The District shall report to the Ohio Department of Education, as soon as practicable, and in a format and manner determined by the Department, any of the following occurrences:

- A. when a notice that a student has been absent with or without legitimate excuse for thirty-eight (38) or more hours in one (1) school month, or sixty-five (65) or more hours in a school year is submitted to a parent/guardian/or custodian;
- B. when a child of compulsory school age has been absent without legitimate excuse from the public school the child is supposed to attend for thirty (30) or more consecutive hours, forty-two (42) or more hours in one school month, or seventy-two (72) or more hours in a school year;
- C. when a child of compulsory school age who has been adjudicated an unruly child for being an habitual truant violates the court order regarding that adjudication;
- D. when an absence intervention plan has been implemented for a child under this policy.

This policy was developed after consultation with the judge of the juvenile court, with the parents, guardians, or other persons having care of the students attending school in the district, and with appropriate State and local agencies.

The student is missing instructional time whether with or without a legitimate excuse:

1. Personal illness (a written physician's statement verifying the illness may be required)
2. Illness in the family necessitating the presence of the child
3. Quarantine of the home
4. Death in the family
5. Necessary work at home due to absence or incapacity of parent(s)/guardian(s)
6. Observation or celebration of a bona fide religious holiday

10. Service as a precinct officer at a primary, special or general election in accordance with the program set forth in Policy 5725

Notification of Absence

If a student will be absent, the parents must notify the School and provide an explanation in writing. If prior contact is not possible, the parents should provide a written excuse as soon as possible after the student's absence. When no excuse is provided, the absence will be unexcused and the student will be identified as truant for that school day. If the offered excuse for a student's absence is questionable or if the number of student absences is excessive, the school staff will notify the parents of the need for improvement in the student's attendance.

A skipped class or part of the school day will be identified as an unexcused absence and students will not be permitted to make-up missed class work. The student will also be subject to disciplinary action.

Students with a health condition causing repeated absences must provide the administration with an explanation of the condition from a registered physician.

HOMEBOUND INSTRUCTIONS

The School may arrange for individual instruction at home for students who are unable to attend school because of an accident, illness or disability. Such instruction may be arranged upon receipt of documentation of the student's condition from a physician. For more information, contact the guidance department.

MAKE-UP TESTS AND OTHER SCHOOL WORK

Students who are absent from school with an excuse shall be given the opportunity to make-up missed work. The student should contact the teacher as soon as possible to obtain assignments. The number of days for completion of make-up work will be equivalent to the number of excused days of absence.

If a student misses a teacher's test due to an excused absence, he/she should make arrangements with the teacher to take the test at another time. If he/she misses a state-mandated assessment test or other standardized test, the student should consult with the guidance department to arrange for administration of the test at another time.

SUSPENSION FROM SCHOOL

Absence from school due to suspension shall be considered an authorized absence. A suspended student will be responsible for making up schoolwork missed due to suspension. During suspension(s) students are able to obtain make-up school work. Parents must give teachers 24 hours following the suspension to have student's make-up work available to be picked up at the main office only. Parents may also receive notification of make-up work via email or other communication. Make up of missed tests may be scheduled when the student returns back to school.

The student will be given credit for properly completed assignments and will receive a grade for made-up test.

UNEXCUSED ABSENCES

Any student who is absent from school for all or any part of the day without a legitimate excuse shall be considered truant and the student and his/her parents shall be subject to the truancy laws of the state. Please refer also to "Truancy" in this handbook.

If a student under the age of 18, has 10 or more consecutive or 15 total days of unexcused absences during a semester, he/she will be considered habitually absent and will be reported to the Judge of the Juvenile Court and to the Bureau of Motor Vehicles for suspension of his/her driver's license, if appropriate, as a result of this excessive absence.

TARDINESS

Each student is expected to be in her/his assigned location throughout the school day. If a student is Tardy and/or late arriving to school, he/she must report to the school office before going to her/his first assigned location. Students who are tardy to school shall be disciplined according to the Student Code of Conduct.

VACATIONS DURING SCHOOL YEAR

It is recommended parents not take their child out of school for vacations. When a family vacation must be scheduled during the school year, the parents should discuss the matter with the principal to make necessary arrangements. It may be possible for the student to receive certain assignments to be completed during the trip.

A.C. 3301-83-08

(Note: This policy must be posted in a central location in each school building and made available to students upon request in order to be effective, i.e. to take advantage of the ability to suspend students from bus privileges for more than 10 (days) without the full panoply of rights otherwise available under 3316.66. Furthermore, this policy and any guidelines should be incorporated into student handbooks.)
